

**B and 3rd STREETS VISIONING PROCESS
MITIGATION MONITORING PLAN (MMP)**

The California Environmental Quality Act requires public agencies to report on and monitor measures adopted as part of the environmental review process (Section 21081.6, Public Resources Code [PRC]; Section 15097 of the CEQA Guidelines). This Mitigation Monitoring Plan (MMP) is designed to ensure that the measures identified in the Environmental Impact Report, as adopted by the City Council, are fully implemented. The MMP describes the actions that must take place as a part of each measure, the timing of these actions, the entity responsible for implementation, and the agency responsible for enforcing each action.

The City has the ultimate responsibility to oversee implementation of this Plan. The Community Development Director serves as the Project Monitor responsible for assigning monitoring actions to responsible agencies. Unless otherwise stated herein, the Project Monitor is responsible for tracking the overall progress towards and implementation of each action.

As required by Section 21081.6 of the PRC, the Davis Community Development Department is the “custodian of documents and other material” which constitute the “record of proceedings” upon which a decision to approve the proposed project was based. Inquiries should be directed to:

Community Development Director
City of Davis
530-757-5610

The location of this information is:

Davis City Hall
Community Development Department
23 Russell Boulevard
Davis, California 95616

In order to assist implementation of the mitigation measures, the MMP includes the following information:

Mitigation Measure: The mitigation measures are taken verbatim from the FEIR or as ultimately adopted by the City Council.

Timing/Milestone: This section specifies the point by which the measure must be completed. Each action must take place during or prior to some part of the project development or approval.

Responsibility for Oversight: The City has responsibility for implementation of most mitigation measures. This section indicates which entity will oversee implementation of the measure, conduct the actual monitoring and reporting, and take corrective actions when a measure has not been properly implemented.

Implementation of Mitigation Measure: This section identifies how actions will be implemented and verified.

Responsibility for Implementation: This section identifies the entity that will undertake the required action.

Checkoff Date/Initials: This verifies that each mitigation measure has been implemented.
