

COMMUNITY OPEN HOUSE MEETINGS

CrownCastle/NewPath DAS Network Proposal

The City of Davis is holding a series of community outreach meetings on a pre-application for a city-wide wireless communication network proposed by CrownCastle International (formerly NewPath Networks). Interested members of the public are invited to attend any of the informational open houses to learn more and to provide input on the proposal.

The open house meetings will focus on the potential sites within the respective areas and site-specific information will be available. If you cannot attend the meeting for your area, you are welcome to attend any of the other meetings. The meeting dates and locations are:

DAS Network Design: The proposed network would consist of approximately 25 sites with antennas located on existing street light poles or joint utility poles whenever possible. A typical design would extend the existing pole height approximately 10 feet and consist of antennas enclosed within a cylindrical casing (16 inches diameter x 72 inches high) as well as possible flush-mounted antennas lower on the pole. Specific designs and heights vary by location. Project information, photosimulations and details for each site are available on the City's website at: <http://cityofdavis.org/cmo/newpath.cfm>.

Open House Format: City staff and project representatives will be available. No formal presentation is scheduled. You may stop by at any time during the open house to view materials and to ask questions. Comments are welcome.

City Procedures: This pre-application process is for information-gathering purposes only. No action may be taken until a formal application is submitted and additional public noticing provided.
