

Community Workshop #1 Approach

Date: Thursday, May 24, 2007
Time: "Drop-In" Event from 6:30 — 9:00 pm (set-up at 5:00 pm)
Location: Davis Teen Center Basement

1 Purposes

(See Steering Committee "Near-Term Meetings and Activities")

- (1) Review and Comment on the "Working Criteria" for Assessing Sites.
- (2) Review and Comment on the "Working List of Sites" to be Evaluated/Add Others.
- (3) Provide Background Information on the Process and Schedule. And Other Background Material ("Open House Guide")

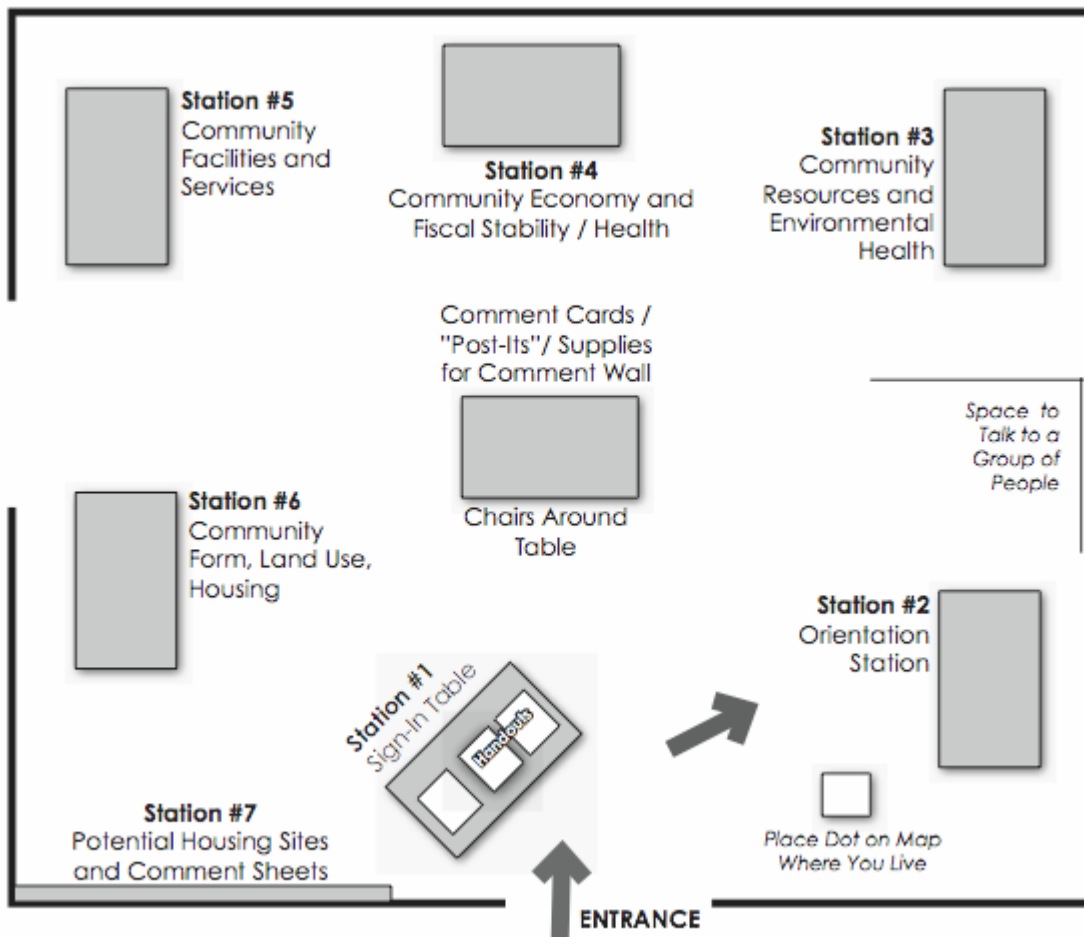

2 Approach to the 'Open House' and Noticing

- (1) As a "drop-in" event, people will be invited to attend anytime between 6:30 and 9:00 pm. They can stay for as long as they want. Will try to put people into groups of 5 to 7 for purposes of going through the stations.
- (2) Notices will be sent to . . . Other notification will be provided through the following . . .
- (3) Stations set-up by overall categories to pose the question (for that topic) — how important are these factors in evaluating potential housing sites? And, is there anything we missed?
- (4) Participants will be given "BLUE" dots *at each station* to identify what they consider to be IMPORTANT factors to consider in

evaluating sites under that particular topic (the number of blue dots would depend on the station — total blue dots would be one-half the number of factors). Participants will also be given five “RED” dots that can be placed on any factor at any station that they consider to be the FIVE MOST IMPORTANT factors. People will be encouraged to only place up to one dot per factor.

- (5) Provide “Comment Sheet” with the ‘Open House Guide’ that would solicit comments on the following:
- (a) What are the special qualities that you value about our community that should be considered as we evaluate potential sites for meeting our housing needs?
 - (b) What are possible opportunities and/or challenges we face in responding to housing and housing sites concerns?
