

CITY OF DAVIS
2003 -2004 CDBG/HOME APPLICANT QUESTIONS WITH RESPONSES

Name of Organization: **CommuniCare Health Centers/Davis Community Clinic**
Project Title: Health Care for Uninsured Youth

1. What is the primary eligibility reason that many client families do not qualify for the Healthy Families Program?

There are two primary reasons that our clients do not qualify for the Healthy Families Program. First, most are too low income and so would qualify for Medi-Cal instead. Second, many do not qualify for any public assistance because of residency and citizen status.

2. The 350 pediatric visits and 225 dental visits represent how many children?

The 350 pediatric visits represent 262 children. The 225 dental visits represent 178 children.

3. Is the “pediatric program” budget in the proposal the total spent for medical and dental care for children at DCC, or just that spent on uninsured youth?

It is the budget for medical and dental care for all children at the Davis Community Clinic.
