

City of Davis, CA

Density

- Low Density (up to 5.99 du/gross acre)
- Medium Density (6.00 to 13.99 du/gross acre)
- High Density (14.00 and greater du/gross ac)

Residential Density by Subdivision

Density is based on dwelling units (du) per gross acre as defined in the City of Davis General Plan. Data source for dwelling unit locations includes the city address/parcel file on the AS400/HTE system, the city GIS, and census data.
