Wayfinding hubs – which ones better aid navigation?

RANK EACH TYPE BY WRITING A NUMBER (1–6) IN THE COLUMN UNDER YOUR CHOICE
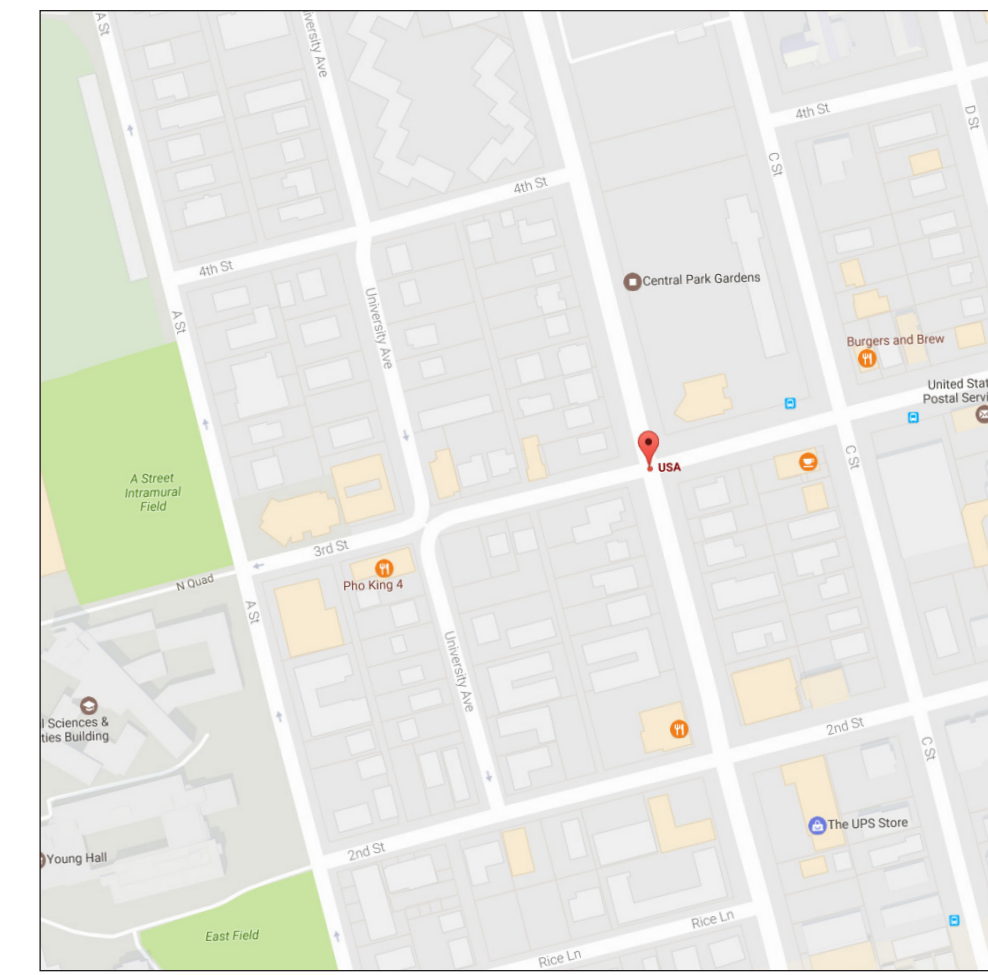

Wayfinding hubs are destinations that establish points of orientation, connections, and markers along the bike ways and pathways

Parks and greenbelts
Not specific, more general location, multiple access points. For example:
• Arroyo Park
• Playfields Park
• Wildhorse greenbelt

Streets
*Very specific, space constraints at busy intersections.
For example:*
• 14th and B Street
• 3rd and B Street
• Cowell Blvd. and Lillard Avenue

Schools
Reasonably specific, location needs to be on adjacent public property. For example:
• Patwin Elementary
• Harper Junior High
• Davis Senior High

Public amenities
Reasonably specific, multiple entrances and buildings in one location. For example:
• Public Library
• Veterans Memorial Center
• Train Station

Shopping centers
Not specific, hard to navigate, location needs to be on adjacent public property. For example:
• Davis Commons
• Anderson Plaza
• University Mall

Features / Landmarks
Very specific, not marked on existing maps, harder to find. For example:
• Davis water tower
• Art installations
• Farmers Market

Rank using number 1 as best
