

To Block a Street:

Use objects that can be **easily moved** (in a matter of moments), in case of an emergency, so fire crews and/or police can have quick access. Such items include trash cans connected by yarn or string. Please **do not use vehicles** to block roadways.

Place the No Parking Special Event signs (provided by the City) out **24 hours prior** to the event, but do not block the street at that time.

If you have any questions, please contact the Police Department non-emergency line, 747-5400

Street Closure Information
