

Parks and Recreation Facilities Master Plan Update

November 27, 2007

TO: City Facilities Users and Interested Parties

FROM: Anne Brunette, Community Partnership Coordinator

RE: Parks and Recreation Facilities Master Plan Update

If you are receiving this letter, you are listed with the city of Davis as the main contact for an organization that uses city facilities, offers a recreational program to the community, a significant renter of city facilities or interested party. The city of Davis is in the process of updating the Parks and Facilities Master Plan. The Updated Master Plan will be the guiding document used by the City to determine what future additions or modifications should be made to the City's parks and recreation facilities infrastructure, including parks, greenbelts, playing fields, community buildings, and swimming pools. The Master planning process will look at the wants vs. the needs of the community. The process will explore funding mechanisms to implement the Master Plan.

An informational web set has been created to provide information about the update.

<http://www.cityofdavis.org/pcs/masterplan/>

The site includes a survey for the entire community to provide feedback into the process. Please share this information with your members and encourage them to participate in the survey. The survey only takes about 6-8 minutes. The site also offers the ability for you and your members to subscribe to electronic updates about the process.

In December the city or a consultant will be contacting some groups to collect additional information. We are mostly interested in information such as number of participants, use of facilities and future needs. Your input will help us plan for facilities to meet the future needs of the community. Please help the consultant in compiling this information. If you have questions or concerns feel free to contact Anne Brunette at 23 Russell Blvd. Davis, CA 95616 or (530) 757-5626 or email at abrunette@cityofdavis.org A PDF copy of this letter is posted to the website if you would like to forward it to your members.
