Davis Police Department: Uniform Crime Reporting Statistics

Presented below is aggregated UCR data for the City of Davis between 1991 and 2010, broken down by offense and year.

The Davis Police Department voluntarily participates in The Uniform Crime Reporting (UCR) Program by submitting monthly statistics on crimes known to police and on persons arrested to our designated repository in California. The California UCR Program then forwards the data to the FBI's national UCR Program. The FBI distributes the data in a variety of forms, perhaps most notably in the annual publication of *Crime in the United States*.

Per UCR guidelines, and as shown below, information is only collected and forwarded to the FBI on the following offenses: murder and non-negligent manslaughter, forcible rape, robbery, aggravated assault, burglary, larceny-theft, motor vehicle theft, and arson. These are Part I offenses and are serious crimes by nature and/or volume. Not all crimes, such as embezzlement, are readily brought to the attention of the police. Also, some serious crimes, such as kidnapping, occur infrequently. Therefore, the UCR Program limits the reporting of offenses known to the eight selected crime classifications because they are the crimes most likely to be reported and most likely to occur with sufficient frequency to provide an adequate basis for comparison when desired.
