

A CLOSER LOOK AT YOUR UTILITY BILL

You are billed for utilities once every two months. The bill covers the following utility services and taxes: Water; Storm Water; Sewer; Sanitation; Municipal Service Tax; Public Safety Charge.

Compares water use for this billing period to the same period last year

A CCF is a billing unit. One CCF = 748 gallons

Your water bill is calculated by combining the base rate and the variable rate (Tier 1 & 2 water use)

The base rate is based upon your water meter size. Most single-family properties have a 3/4" or 5/8" meter.

The variable rate is based on actual water use. There are two tiers. The current Tier 1 rate is \$1.50/ccf (billing unit). The current Tier 2 rate is \$1.90/ccf. This customer used 36 ccf at Tier 1, and 2 ccf at Tier 2. Total water use was 38 ccf for this billing period (28,424 gallons).
