

Appendix M: Waste Management – Containerization: Priority Bikeways

Yard Waste Containerization Priorities Based On Bicycle Safety

11/6/2013

City Council has approved yard waste containerization as of August 2013. No action item is necessary; however, this prioritization list will serve to guide implementation by addressing the most important streets in regards to bicycle safety. Corridors include primary bikeways (streets with bike lanes and/or major bicycle network connections) and secondary bikeways (connecting quiet street bikeways, minor bicycle network streets with bike lanes, other streets near schools). Classification and definition of primary and secondary bikeways subject to change, and are identified in this document for purposes of prioritizing yard waste containerization.

ID	Street	From	To	Priority: High 1, Medium 2, Low 3	Type of Bikeway	Type of Bike Facilities	Other Details
South Davis							
1	Cowell Blvd	Washoe St	Dresbach Way	1	Primary	Single Striped Bike Lanes	Wide Bike and Parking Lanes
