TEMPORARY POWER AND/OR GAS DRY-OUT

Job Address: _____ Date: _____

Permit # _____ () Temporary Electrical Services - Panel Amperage _____

or () Gas Dry-out is requested for a period of _____ days for the following purpose(s):

It is understood and agreed that the granting of this request for temporary electric service or gas dryout **does not constitute approval to occupy or use the building except for the purpose(s) stated above.** It is further understood and agreed that if final approval of the building is not granted by the City of Davis Building Department in the number of days specified above, or if the building is occupied, the temporary electric service or gas dryout will be discontinued without further notice given by the city.

This department will not authorize temporary electric service or gas dry-out unless all required permits have been obtained and the following has been inspected and approved:

Temporary Electric Service

- All related service equipment
- All wiring, panel boards, devices, etc. that may be energized.

Temporary Gas Dry-out

- Heated portions of the building (including the garage if it is to be taped/textured) are to be enclosed and lockable.
- All gas piping in the system must have been previously pressure tested and must be protected from physical damage.
- The furnace is connected to gas, electric, vents, ducts, and combustion air is provided.
- Thermostats must be mounted for operation.

I, the undersigned, will be responsible for maintaining a safe installation until final building approval. I have read the manufacturers installation instructions for the furnace and am fully aware of any restrictions by the manufacturer on the furnace when used for dry out purposes.
