

## CANDIDATE STATEMENT

**LARRY GUENTHER**

Age: 55

Occupation: Yolo County Employee / Tree Commissioner

I am running for City Council because I know that—with strong leadership—our community can use our current challenges as opportunities to improve.

Where do I see opportunities to improve? Community engagement, public safety, fighting homelessness, fiscal sustainability, bike and road infrastructure, and negotiating development agreements.

I believe that we can't just declare a climate emergency. We need to act like it's an emergency—not with panic, but aggressively with planning and forethought.

I have experienced Davis as a graduate student (Geophysics), a small business owner and a renter and homeowner. My community involvement includes President of my Neighborhood Association, Secretary of Davis Odd Fellows, Chair of the Tree Commission, board member of Tree Davis and many other volunteer positions. I am an Eagle Scout and Navy vet.

I am a problem solver. With my background and experience, I have the critical thinking skills necessary to solve tough problems. Through business and volunteer engagement, I have worked with Davis community members to creatively solve problems for over 17 years. I listen and I get things done.

I am absolutely committed to making Davis the best it can be. I ask for your vote November 3rd. Thank you!
