

City of Davis Proclamation
*World Day for Cultural Diversity
Dialogue and Development*

Friday, May 21, 2021

- *The World Day for Cultural Diversity for Dialogue and Development*, a day set aside by the United Nations, is an opportunity to deepen our understanding of the values of cultural diversity and to learn to live together in harmony.
- The City of Davis has long supported and celebrated cultural diversity, and the community is fortunate to have members with ties to many parts of the world.
- We work to include equity into all projects, such as the current update to the Climate Action and Adaptation Plan (CAAP) to create a roadmap to community carbon neutrality by 2040.
