Per State law under SB 1383 and City Municipal Code 32, all customers are required to have access to recycling and organics collection service and must not place recyclable and organic waste in the trash. Customers with individual trash collection service may use this form to petition the City for permission to share recycling and/or organic waste collection carts with an adjacent property. There is no utility rate discount for sharing recycling and/or organics collection service.

The adjacent property owners/business owners listed above are requesting to share the following Recology Davis waste collection carts: (mark all that apply)

- Organic waste cart
 Recycling cart (single-family customers only)
 Paper recycling cart (commercial and multi-family customers only)
 Glass, plastic and metals recycling cart (commercial and multi-family customers only)

Please explain how the cart(s) will be shared, including where the shared carts will be placed to allow both properties to have full access:

- As the property owner and/or business owner, I am authorized to sign this form and acknowledge that the City of Davis' recycling and organic waste diversion requirements under Chapter 32 of the City Municipal Code will be met for all waste generated from this property.
- I attest that all information presented herein to be true and accurate and that no recyclable or organic waste materials generated at this property will be landfilled if this request is approved.
- I understand that if either property listed on this request no longer shares service, has limited or no access to the shared service, or is no longer separating their recyclable and/or organic waste as required, the approved request will be cancelled and Recology Davis will provide recycling and/or organic waste cart(s) to each customer.
- I understand that approval of this request expires five years after the signature date below and upon the property changing ownership, at which time this property will need to submit a new request at that time or Recology Davis will provide recycling and/or organic waste cart(s) to each customer.
- I acknowledge that the City and/or Recology Davis will perform occasional inspections of waste carts to ensure that waste diversion is still occurring and if a significant amount of recyclables and/or organic waste is found in the trash, the approved request will be cancelled and Recology Davis will provide recycling and/or organic waste cart(s) to each customer.
