

Argument in Favor of Measure H

Vote **YES on H** to approve the Davis Innovation & Sustainability Campus (DiSC) because it **enhances and advances more of what we love about our city**.

YES on H gives voters in Davis an exciting opportunity to:

- build **affordable housing** for the next generation of Davis residents and families;
- **protect endangered species** and permanently **preserve hundreds of acres of agricultural land**;
- provide **good jobs** close to home, for UC graduates and others;
- produce **more STEM internship opportunities** for Davis high school and college students;
- preserve Davis's quality of life **without raising taxes**.

YES on H is supported by residents, business leaders, students and environmentalists, because it **advances Davis' community values and provides opportunities for everyone**. DiSC will build on Davis' commitment to bold environmental and agricultural leadership by attracting next-generation companies focused on solving the world's greatest challenges, like climate change, food supply, and water scarcity. And DiSC will be a **carbon-free** model for California, requiring **100% renewable power** onsite.

YES on H will improve existing trails and add new bike and pedestrian paths and a safe undercrossing of Mace Boulevard. An objective, independent study confirms that DiSC traffic improvements will **reduce commute times** near the Mace/I-80 interchange by up to 3-1/2 minutes.

YES on H improves the amenities that matter to Davis. It creates **new greenbelts and trails**, native habitat, and soccer, softball and other recreation fields -- all **at no cost to taxpayers**. DiSC brings millions of dollars a year to the City budget and for support of Davis schools, while generating \$29 million in one-time revenues to fix our infrastructure and help pay for a **new South Davis library and community center**.

YES on H is endorsed by the entire City Council, the Davis Chamber of Commerce and UC Davis student associations. Learn more at www.YesonDiSC.com. VOTE **YES on H!**
