

NATALIE CORONA COMMITTEE

Splash Pad Update and How to Volunteer January 2023

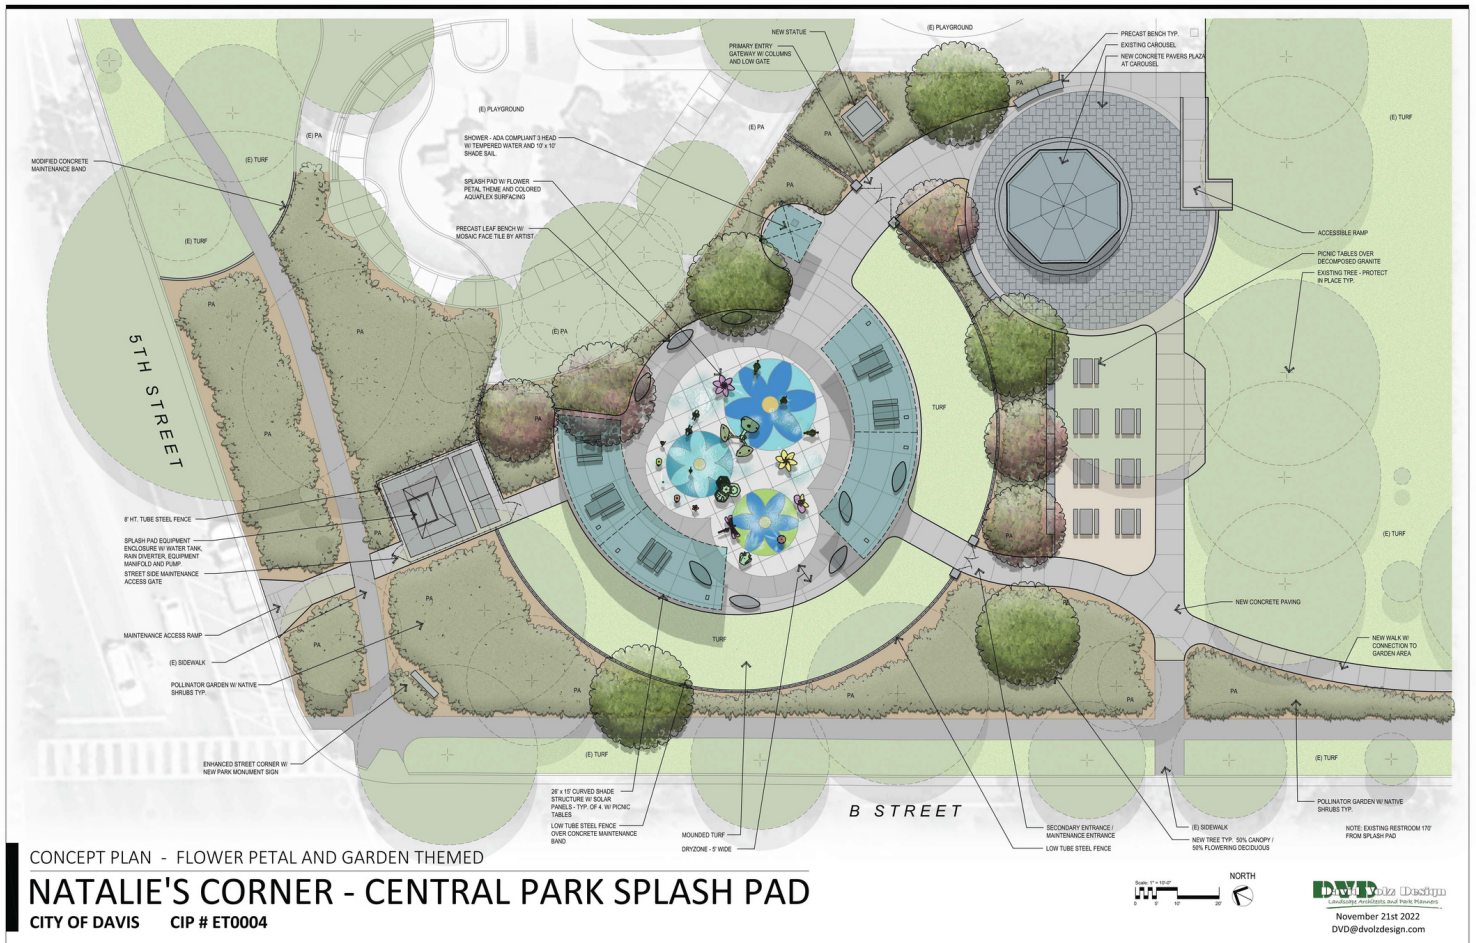

Remembrance Feature Update and Renderings of Splash Pad Project

On December 1, 2022 the Natalie Corona Committee met to discuss ideas to incorporate the City Council's November 1 decision to:

- Name the Splash Pad Area "Natalie's Corner"
- Add a sunflower mosaic, which was Natalie's favorite flower
- Include an informational panel explaining who Officer Corona was

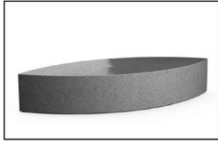

These three approved recommendations came from a public meeting that was held on September 23, 2022, and from past community input sessions. In addition, the Committee reviewed the updated renderings of the Splash Pad project at Central Park.

Perspective

Perspective

The Committee has been working in collaboration with City staff over the last few years on a remembrance that reflects the positive nature of Natalie's personality while flowing into the Splash Pad's environmentally-friendly, family-focused and inclusive design. The renovation will include a free, interactive water feature (splash pad) and gathering space for all ages in an underutilized area of Central Park, as well as include shade structures, play features with a combination of ground level and raised water spray jets, bench seating and seat walls, public art, and pollinator gardens. The park's Great Lawn will also be renovated with a new water-efficient irrigation system and turf that will be sustainable using a solar-powered ultraviolet disinfection system to treat water without chemical use, biofiltration basins to capture stormwater and increase groundwater recharge, and a water-efficient irrigation system to recycle water to irrigate lawn and plants throughout the park. The project will further feature an interactive educational display about the project's innovative systems to increase sustainability, as well as use of drought-tolerant, native landscaping.

How to Volunteer or Donate

Scan the QR code to donate to Natalie's Corner.

As the design and work on the remembrance feature and Splash Pad project continues, members of the public can sign up to receive updates and consider donating time, resources or ideas to the Natalie Corona Committee.

To learn more about the Natalie Corona Committee and how to volunteer, contact Committee Chair Lois Wolk at lgwolk@dcn.org or Committee Member Brett Lee at brett2001@gmail.com.
