

**NOTICE OF PUBLIC HEARING
PROPOSED UPDATES TO THE CITY'S WASTEWATER DISCHARGE LOCAL LIMITS
CITY OF DAVIS**

The Davis City Council will conduct a public hearing at the City Council meeting at 6:30 p.m. on Tuesday, November 19, 2024, in the Community Chambers at City Hall, 23 Russell Boulevard, Davis, California, for the purpose of receiving comments on proposed updates to the City's Wastewater Discharge Local Limits.

DESCRIPTION:

On December 9, 2015, the Environmental Protection Agency (EPA) evaluated the City of Davis Pretreatment Program for compliance. During this evaluation, it was determined that the City's wastewater local limits needed to be reviewed for potential updates. Any updates require approval by the State or Regional Water Quality Control Board as a substantial change to the City's Pretreatment Program.

The City's current local limits were developed in 1993 and most recently modified in 2013.

After review of a report on the Local Limits, on December 28, 2023, The State Water Board on behalf of the Central Valley Regional Water Quality Control Board approved the City of Davis's proposed changes.

Based on the report and State approval, staff is proposing to adopt the proposed new wastewater discharge local limits as follows:

Pollutant	Local Limit (mg/L) Daily Maximum Concentration
Conventional	
Ammonia as N	2,700
Biochemical oxygen demand (BOD)	3,800
Total suspended solids (TSS)	2,600
Metals (Total Recoverable)	
Arsenic	1.7
Cadmium	4.7
Chromium	23
Copper	7.1
Lead	5.0
Mercury	0.21
Molybdenum	1,500
Nickel	6.8
Selenium	14
Silver	4.1
Zinc	4.0
Other Toxics
