

Certified Irrigation Auditor Information

Pursuant to the City's Water Efficient Landscape Ordinance (Ordinance No. 2369) the Certificate of Completion for landscape projects requires submittal of an irrigation audit report prepared by a certified auditor. Certification may include completion of a program such as the US EPA's WaterSense irrigation auditor certification program or the Irrigation Association's Certified Landscape Irrigation Auditor program.

- Information on certified auditors from the Irrigation Association is available at: <http://www.irrigation.org/hirecertified/>
- Information on certified auditors from the California Landscape Contractors Association (CLCA) Water Manager Program is available at: <http://clca.us/water-pro/employs-water-managers.html>
